Women Will Take a Hand In Pursuing the Profiteer

WASHINGTON—Men having failed to rout out the elusive profiteer, the department of justice now intends to give women a fling at the jolly game of "Profits, whose got the profits?" Miss Edith Strauss (upper left), head of the women's division of the department of justice, is sending women speakers to large cities; Miss Mary Stewart (upper right), of Ohio, recently returned from relief work in Turkey, will tour the western and northwestern states in search of the elusive profiteer; Miss Helen Grimes (lower left), of Pennsylvania, will carry on the search in the middle states; while Miss Florence M. Rohr (lower right), will tour the southern and New England states.

G. O. P. PLANS IN WEST UNDERWAY

San Francisco Headquarters Regarded as Third Most Important in Nation.

TACOMA, Wash., July 14.—Republican campaign plans for the western states will be formed at a meeting in San Francisco next week, according to announcement made by Elmer E. Bover, recently appointed assistant regional director, with headquarters in San Francisco, by Will H. Hays, Mr.

Dover has arrived here from the east. The San Francisco meeting, Mr. Bover said, will be attended by Republican national committee members from California, Washington, Oregon, Idaho, Nevada, New Mexico and Arizona.

Mr. Bover said that the San Francisco headquarters of the party are regarded as the third most important in the nation by eastern headquarters and that a vigorous campaign will be carried on in the west.

Senator Harding was urged by Mr. Bover to make a western trip and the latter said chances were good that it would be done.

CAMPAIGN IN UTAH
WASHINGTON, July 14.—An active campaign based on the issue of Americanism as opposed to internationalism will be waged this fall by the Republican senatorial campaign committee in 14 or 15 states where the election of approximately \$9,000 head of sheep. The sheep have all been dipped in that vicinity, however, and now are on the summer range, it is stated.

UTAH FOURTH IN SUGAR OUTPUT

More Than 116,000 Acres Planted to Beets in State This Year.

Utah ranks fourth in the production of sugar beets, according to Miner M. Justin, agriculture statistician of the United States bureau of crop estimates. More than 116,000 acres of land in Utah this year are planted with sugar beets and a record crop is expected. In Ogden and vicinity a larger beet acreage is noted, which eclipses all previous marks. Last year 109,700 acres were planted with beets while the largest area in any previous year was in 1917, when 91,100 acres were in beets. In 1915 Utah had but 58,400 acres in sugar beets.

The total area planted to beets in the United States in 1920 is 978,600; in 1919 it was 890,400, which was a jump of more than 200,000 acres from the 1918 figures, though in 1917, the previous record year in the industry in this nation, the total was 806,600. Colorado has the largest acreage planted to beets of any state in the union, 253,500; Michigan is next, with 173,400 acres, but only 154,000 of these are planted in the state. Michigan factories produce the sugar from 1700 acres of beets grown in Canada, and from 17,700 acres in Ohio and Wisconsin. California takes third place in acreage planted to beets, with 135,700, as its figures; Utah is fourth, with 116,100, and the other states rank: Nebraska, 74,900; Idaho, 57,600 in addition to 3,200 of which the product is manufactured in Utah; Ohio, 44,300, in addition to 11,000 acres of which the beets are to other states; Wisconsin, 29,000, in addition to 7000 acres of beets sent to other states; Iowa, 21,200 acres; Wyoming, 14,400 acres, while 54,300 acres are in other states which are grouped by the bureau to avoid disclosing figures for individual companies.

California's banner year for acreage was in 1917, with 190,200 acres, but the next year it dropped below 141,000, which was lower than it had been since 1915. It has been slowly growing since. In all the other states this year's acreage is the record, surpassing record figures of the year before, though there had been considerable fluctuation in several other states before 1919.

Contract Cases put Before Commission

Oral arguments were presented to the public utilities commission of Utah yesterday in connection with the special contracts held by the Utah Power and Light company with some of its largest customers.

The power company was represented by C. C. Parsons of Salt Lake. The Ogden and Union Portland Cement companies took the entire proceeding to the supreme court of Utah last spring on the question of jurisdiction of the commission. The action was dismissed by the supreme court with a petition for a writ of prohibition on technical grounds and left the issue of jurisdiction of the commission entirely undecided. H. H. Henderson and Charles R. Hollingsworth, attorneys for the cement companies, resisted the jurisdiction of the commission, and questioned the authority of the state legislature to pass a law altering terms of a legal contract already made.

The state constitution according to Attorney Parsons made the contracts subject to authority of the state and that, therefore, the enforcement of the authority was really complying with the terms of the contract and not a revoking instrument. The coal contracts, and the railroad contracts will be argued to day. No decision in the cement cases were rendered.

Ferest Men Plant Thousands of Fish

Thirteen thousand trout were planted in the south fork of American fork canyon by Forest Ranger Vivian C. West, of the Wasatch forest, according to information received today. Ranger Park of the Wasatch forest will plant 40,000 fish at Beaver Creek soon and also a number of fish in the Weber and Provo rivers.

Many Sheep Dipped In Caribou District

Information from the Caribou forest tells of a band of scabbied sheep passing over the trail in the vicinity of Rocky Ford Bridge over the Blackfoot river. The passing of the infected sheep had far reaching effects, and necessitated the dipping of approximately \$9,000 head of sheep. The sheep have all been dipped in that vicinity, however, and now are on the summer range, it is stated.

EMPRESS EUGENIE LEFT ESTATE OF \$10,000,000

LONDON, July 14.—The estate of the late Empress Eugenie is valued at considerably more than \$2,000,000, according to the Daily Mail. Some of the jewels of curious design are considered almost priceless.

The late empress bequeathed her mansion and estate at Farnborough, England, to Prince Victor Napoleon and his wife. A considerable sum also was left to Queen Victoria of Spain, the late Empress' goddaughter.

N. O. WOMAN BREAKS WRIST

Hot Weather's Effect On Crops Counteracted By Intense Irrigation.

(Special Correspondence.)
NORTH OGDEN, July 14.—Mrs. Elizabeth Storey, wife of Charles Storey, sustained a fractured wrist Sunday when she fell down a well. She was carrying a case of berries to the basement when she missed her footing and was precipitated down the steps. Shortly after, her son, Charles, carrying a can of honey met with a similar accident, but sustained nothing more serious than a wrenched foot.

The hot weather of the past few days, detrimental in a measure to some classes of crops, has been largely counteracted by an increased supply of irrigation water. The crops in general are looking good with a fair yield expected. The cherry crop is being rapidly handled by the canning factories.

Sunday school conference was held last evening with morning and afternoon sessions. Franz A. Behling and John Q. Blaylock of the stake superintendency and Elder Foulger of the stake board were present.

Plans are under way for an elaborate celebration of Pioneer day at North Ogden, to be participated in by the residents of both North Ogden and Pleasant View. Committees from both communities are arranging the program.

A twin daughter having ignited her clothing when playing with matches, Mrs. Victor Chugg rushed from her bed leaving a wooden chair to fight the flames that threatened to envelop the little girl. Her daughter was slightly burned, but Mrs. Chugg suffered serious results.

The ward committee on genealogy, R. F. Blaylock, James Storey, William Montgomerie and R. A. Storey, are preparing for the seventh temple excursion for the year. This time they will go by automobile to the Logan temple on August 6. In six excursions this ward has furnished 437 entries and issued 252 recommendations.

A number of North Ogden teachers attended N. O. A. sessions in Salt Lake this week.

Frederick Barker and H. A. MacFarland, members of the local committee for the "Fathers and Sons" outing in South Fork canyon, July 26, 27 and 28 are working hard to have North Ogden well represented.

From a small beginning the North Ogden library has grown to fairly large proportions. Scott W. Campbell and George S. Dean, librarians, reported over a thousand volumes on the shelves, with a large percentage in circulation.

Mental Clinic to Be Held Tomorrow

Dr. George E. Hyde of the state mental hospital will be in Ogden tomorrow to conduct the regular monthly mental clinic. Dr. Hyde will open the clinic in the city hall at 10 a. m. and continue interviews throughout the day.

STILL LOCATED IN BOX ELDER

Japanese Fined \$250 For Alleged Operation of Hard Liquor Manufactory.

(Special to Standard-Examiner.)
BRIGHAM CITY, July 14.—Located by both local and federal officers, a whiskey still said to be equipped with enough mash to supply all the residents of Boxelder county with hard liquor or saki for months, was discovered at 9:30 o'clock Tuesday morning on the farm of William Bilton, between Deweyville and Collinston. Harry Naguchi was placed under arrest by Sheriff John Welling and City Marshal W. H. Lee of Brigham. Federal Prohibition Agent, J. E. Shields, a fine of \$250 was placed on the Japanese when he appeared before the Justice of Peace, Russell Wright, later in the afternoon.

Receiving advanced information on a whiskey still in the community, Sheriff Welling notified Federal Prohibition Officer Shields and City Marshal Lee and together they investigated. The farm upon which the still was found is owned by William Bilton of Salt Lake but was in charge at the time of the arrest of the Japanese, by his son, George Bilton, the officers said. Finding that the place needed more attention than he could give it, George Bilton contracted thirty acres of it to the use of Naguchi, who intended to plant it in beets. The Japanese planted half of the land in corn, the officers said.

A small building located beside a pond was discovered by the officers. This contained a stove and some personal effects of the Japanese. Rising back of the cabin was a small hill in the side of which was a dugout. Upon searching, the officers said they found a complete outfit for the manufacture of whiskey. There was one 50 gallon barrel of rice and grain mash, one 15 gallon barrel of rice and grain mash, one 15 gallon barrel of rice mash, one 1 gallon container partly filled with the finished product, genuine whiskey, made by the Japanese on July 10, according to the officers. There was also located in the dugout a number of rice sieves, and one large copper-cooker sixteen inches in diameter and thirty inches in depth. The officers estimated the output of the still at fifteen gallons of whiskey every twenty-four hours.

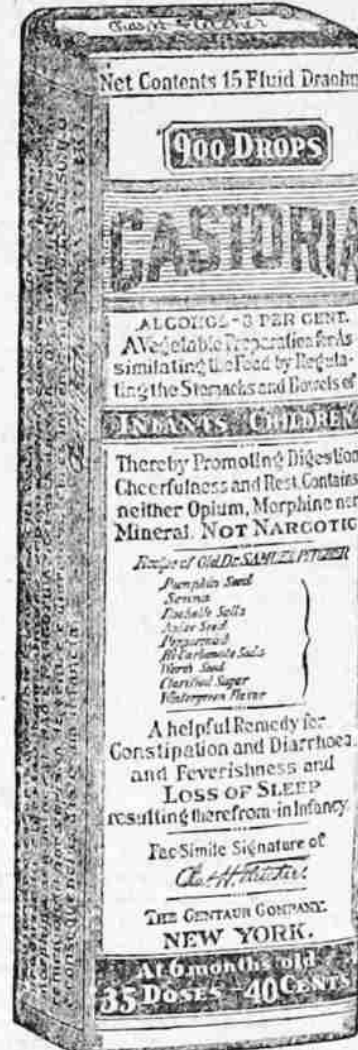

Naguchi is alleged to have admitted that he was conducting the still and had held possession of it since Feb. 1. The equipment for the still was brought to the farm by a friend of the Japanese now in Nevada during the first of January, he said.

Whether William Bilton and his son, George Bilton were aware of the still on the farm was not determined by the officers.

IT WAS HIGH TIME.

HARDWICK, Mass.—For the first time in nearly fifty years a wedding took place in the Universalist church, drawing practically everybody in town to the scene. The ceremony was a double one.

Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children unless you or your physician know of what it is composed. **CASTORIA DOES NOT CONTAIN NARCOTICS**, if it bears the signature of Chas. H. Fletcher.

Exact Copy of Wrapper.

Children Cry For Fletcher's

CASTORIA

Of Course You Love Your Baby.

You love it because of its very helplessness, because it can't tell you what is the matter when it feels bad. It can only cry and look to you for help. But the more you love baby, the more you want to help baby, the more you ought to realize what a wonderful remedy Fletcher's Castoria is. It has been used for babies' ailments for over thirty years.

An experienced doctor discovered Fletcher's Castoria especially for babies' use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Doctors who know what is safe and best for babies have only good to say of it.

Don't neglect your baby. Get a bottle of Fletcher's Castoria and give baby a few doses of it. See how the little one smiles at you as if trying to thank you for helping it. Soon you will learn to depend on Fletcher's Castoria, made just for Infants and Children, and of course you would not think of using anything for them that was not prepared especially for Infants and Children. So keep it in the house.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher

THE CENTAUR COMPANY, NEW YORK CITY.

BRYAN IS BITTER ON CONVENTIONS

Democrats as Well as Republicans Severely Censured in Speech At Boise

BOISE, Idaho, July 14.—William J. Bryan in an address here tonight severely censured both Democrats and Republicans for their nomination of alleged "wet" candidates, their failure to make recognition in their platform of America's fight for prohibition, or the adoption of dry plank and the uncertainty and ambiguity of both party planks on the league of nations.

Speaking of the wet plank offered in the Democratic national convention Mr. Bryan said that it was "the wettest plank that was ever offered on the floor of any convention." Mr. Bryan also told of his attempt at San Francisco to put across a plank aimed at profiteering and said he "was rolled in the dust" by the Democratic party.

Speaking of the league of nations, he said the Democrats had gone the Republicans "one better in ambiguity and that a sham battle would be fought in the coming campaign on the league of nations and that everybody would know it was a sham battle." Bryan spoke of Governor Edwards of New Jersey and the "wets" as a group that had "dared to insult the conscience of a nation, and to turn back the hands of time."

U. S. RELIEF WORKERS TO REMAIN AT POSTS

PALO ALTO, Cal., July 14.—The American relief and anti-typhus administration workers in Poland who are under the direction of Herbert C. Hoover have been ordered to remain at their posts and brave any invasion of the Bolshevik armies in order that they may do all the good possible, it was announced from Mr. Hoover's home here today.

Snakes are said to be so short sighted that they are unable to see a distance of more than one-quarter of their own length.

It's a cinch to figure why Camels sell!

You should know why Camels are so unusual, so refreshing, so satisfying. First, quality—second, Camels expert blend of choice Turkish and choice Domestic tobaccos which you'll certainly prefer to either kind smoked straight!

Camels blend makes possible that wonderful mellow mildness—yet all the desirable body is there! And, Camels never tire your taste!

You'll appreciate Camels freedom from any unpleasant cigarette after-taste or unpleasant cigarette odor!

For your own satisfaction compare Camels puff by puff with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes for 20 cents or two packages (200 cigarettes) in a glassine home or office supply or when you travel.
